The Solution to Pollution

Many products in your home contain chemical compounds that can poison, corrode, explode, or ignite when handled improperly. (See list of items on reverse.) When discarded, these substances become household hazardous waste (HHW) and can threaten human health and the environment. For this reason, it is illegal to dispose of HHW in the trash or down any drain. That is why the Central Contra Costa Sanitary District established the HHW Program—to provide local residents with convenient and environmentally safe HHW disposal.

Hazardous wastes brought to our Household Hazardous Waste Collection Facility will never reach waterways through sewers, storm drains, or landfills. To help prevent pollution of our water environment, please bring your HHW to the facility.

THERE IS NO DROP-OFF FEE FOR ELIGIBLE RESIDENTS!

COMMUNITIES ELIGIBLE TO USE THE FACILITY

The HHW program services are paid for by members of the communities on the map at right as part of their sewer service charge. Partnership agreements between CCCSD, MVSD, Concord, Clayton, and San Ramon (for southern area) ensure that all central county residents have access to these services.
